U-TURNS EASILY IN SEMI TRAIL

FACTORY CAT XR SCRUBBERS

These rugged and high performance scrubbers offer the productivity of the industry's largest equipment, but in a more maneuverable package.

With two specialized cleaning systems and five deck sizes to choose from, **FACTORY CATS XRs** offer the results and capacity required to clean your unique application.

The "Disk" XRs offer gimballed brush drive and 45% more scrubbing power than competitive brands. The "Cylindrical" units reduce or eliminate dust mopping, by sweeping and scrubbing in a single pass.

The scrub decks include adjustable wipers and curtains, for unmatched water control. All components are made of heavy gauge steel for durability and accessibility is designed in to simplify service work.

PRODUCTIVITY

Productivity is a function of scrub path, run time and tank capacity, and **FACTORY CATS** top the chart.

1. Larger Tanks (68 gallons) = *Less stopping to refill*
2. Wider Scrub Path (46") = *Fewer trips down the aisle*
3. High Down Pressure = *Less double scrubbing*
4. Twin Vacuum Motors = *Dry, safe, clean floors*
5. Big Battery = *Runs a full shift*

EASY TO SERVICE

Any manufacturer can claim to build equipment that is both tough and easy to clean up, but we actually do and invite you to compare other equipment. Your maintenance staff will notice the difference immediately.
